Allowable Subject Matter

1. Claims 1, 9-12, and 18-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention is directed towards generating an audio/video clip by multiplexing video and graphics streams. The independent claims identify uniquely distinct features, "when the active period of the control segment in the display set overlaps with an active period of a control segment in an immediately preceding display set, the time information designates the active period of the control segment in the display set to start at or after a time at which, during the active period of the control segment in the immediately preceding display set, transfer of graphics generated by decoding graphics data in the immediately preceding display set is completed." The prior art recited in the IDS submitted 10/7/2007 (WO 2004/098193) discloses multiplexing video and graphics streams, does not anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mishawn N. Dunn whose telephone number is 571-272-7635. The examiner can normally be reached on Monday - Friday 7:30 AM to 5:00 PM.
